Successful Listing on the Main Board of The Stock Exchange of Hong Kong Limited

We are excited to announce our parent company, Modern Dental Group Limited (SEHK stock code: 3600), a leading global dental prosthetic device provider in Hong Kong, successfully listed on the Main Board of The Stock Exchange of Hong Kong Limited (“HKEx”) on December 15th 2015.

In 1986, Modern Dental Laboratory was born in Hong Kong as a small laboratory. Throughout the past 30 years, we have given tremendous efforts and hard work to ensure on consistent high quality products fabricated with trusted and reliable materials. These efforts have paid off as we continue to receive increasing demand for our quality prostheses from the local and overseas dentists.

We wish to thank all our Hong Kong dentists who have been working with us. We are proud that a Hong Kong founded company is able to become a leading global prosthetic device provider, reaching dentists from all around the world.

We will continue to further increase our product range, seminars, service and quality, with the good of making your practice run even smoother.

The Next Frontier in Dentistry -
Intra-oral Scanners

To promote digital dentistry in Hong Kong, Modern will offer our customers a large discount on 3Shape Intra-oral Scanners. YOU CAN NOW 100% OWN A 3SHAPE INTRA-ORAL SCANNER FOR AS LOW AS 49,000.00 HKD. Guaranteed lowest price in Hong Kong & Macau.

From a clinician's and clinic's perspective, the advantages of an intra-oral scanner includes:

- Saves chair time compared with traditional impression and bite taking
- Saves material costs
- Faster laboratory fabrication turnaround time
- Can be used as intra-oral camera
- Open system (STL file), capable of chairside milling integration
- Improve patient perception of clinic's state-of-the-art technology
- Shade matching option

Limited offer during promotion period only. Please contact our sales team at +852 3766 0783 - Ms. Jasmine Cheung or +852 3766 0760 - Mr. Daniel Chok for a demonstration now!

Different Ways to Pack Products

There are continuous enquiries about the packing of different products. Please see below the ways how we pack them.

1. Normal porcelain prosthesis (ex. PFM)
   - These will be seated on the working models and placed in the box (Figure 1) after vacuum packaging.
   - Screw-retained crowns will be seated on the working models (Figure 6) and packaged.
   - Lave full ceramic prostheses will be packed into a specific box as shown in Figure 4.
   - Implant bridges with 10+ units will be packed into a large specific box (Figure 5).
   - Different accessories like implants, attachments and scrap artificial teeth etc., will be packed into the C1 or C2 box (Figure 3).
   - Location jigs and artificial gums will be seated on the study models and will be packed into a plastic bag (Figure 7).

2. Implant product prosthesis
   - Lave full ceramic prostheses will be packed into a specific box as shown in Figure 4.
   - Implant bridges with 10+ units will be packed into a large specific box (Figure 5).
   - Different accessories like implants, attachments and scrap artificial teeth etc., will be packed into the C1 or C2 box (Figure 3).
   - Location jigs and artificial gums will be seated on the study models and will be packed into a plastic bag (Figure 7).

3. Full ceramic and veneer prosthesis
   - Lave Ultimate and full zirconia products will be seated on the working models and packed into the box after vacuum sealing.
   - Less than 3-unit full ceramic and implant products (cement-retained crown/bridge), 1 to 2-unit veneers, small accessories (ex. attachment) will be packed into a small seal bag and placed in the C1 box.
   - For 4 to 9-unit full ceramic and implant products (cement-retained crown/bridge), 3 to 8-unit veneers (upper and lower products will be placed in 2 boxes), small accessories (ex. attachment) will be packed into a small sealed bag and placed in the C2 box (Figure 3).
   - If C1 and C2 box are unable to accommodate the prosthesis or if 10+ unit full ceramic bridge will be packed, then the large specific box will be used (Figure 5).
   - Full ceramics of different materials will be packed together in the C1, C2 packing boxes. If porcelain-fused-to-metal (PFM)
      and full ceramic crown/bridge are to be fabricated together, the full ceramic prostheses will be packed into the C1, C2 box, while the PFM will be seated on the working model and packed after vacuum sealing.
   - Accessories like implants, attachments, duralay and artificial gums etc., will be packed into the C1, C2 box (Figure 3).
   - If more than 2-unit of veneers are fabricated, then they will be labelled and packed into the C1, C2 box (Figure 3).

4. Accessories
   - Accessories like post and cores, copings, permanent teeth, scrap artificial teeth, R-Pins, attachments, artificial gum and duralays etc., will be packed into C1, C2 box (Figure 3).

5. Wax rims and custom trays
   - Wax rims and custom trays will be seated on the working models.

6. Post and core, duralay (without primary working model)
   - These will be packed into the C1, C2 box (Figure 3).

7. Reduction copings
   - Reduction copings will be seated on the duplicated models. If there is no duplicated model, it will be seated on the primary working model, wrapped with products and packed into the box.

8. Denture and orthodontic products
   - Co-Cr, acrylic, flexible and ReSure dentures will be packed into the D50 box (Figure 2).
   - Orthodontic products will be packed into the D57 box (Figure 2).

3M TrueDef Intra-oral Scanner is available at a discounted rate from Modern as well.

- Great for invisalign users.

Quarter 2 Seminars in 2016

Modern Dental Laboratory is excited to announce the upcoming Evening Seminars for the 2nd Quarter of 2016. This is a valuable chance for you to meet with our colleagues and technical experts to exchange and update dental knowledge. Please save the date and register now since space is limited. Details below:

Topic: Model Pouring Workshop
Date: 8 April 2016 (Friday)
Time: 17:00-18:30
Location: Digtik Dental Solutions
Max participants: 10 DSAs
Speakers: Raymond Ho & Amanda Li

A workshop which will teach dental assistants to improve their technique of pouring a stone model from an impression. Demonstration will be given by our technicians, followed by hands-on practice from each participant.

Topic: Know Your Products
Date: 20 May 2016 (Friday)
Time: 19:00-21:00
Location: MDL Hong Kong Office
Max participants: 15 doctors
Speaker: Ms. Joey Wong

There are numerous treatment options for patients. By understanding more on the product availability, it will be more flexible for you to make the most appropriate choice for patients, in terms of aesthetics, durability, economy, and have a better cooperation with dental laboratory.

For further information or enrollment, please contact our marketing team at +852 3766 0782 – Ms. Tissue Fung.

New Product Leaflets for Your Reception

Modern Dental Laboratory is pleased to release two new product leaflets:
1) Anti-snoring product leaflet with self-testing questionnaire (patient version) for the reception area, Chinese and English versions are available
2) ReSure partial dentures & anti-snoring device product leaflets

If you would like more copies for your clinic or have any inquiries about the product, please feel free to contact our sales team at +852 3766 0783 - Ms. Jasmine Cheung or +852 3766 0760 - Mr. Daniel Chok.

Time to take a break!

Modern Dental has a soccer team formed by our technicians and you are cordially invited to have games with them in Shenzhen. Interested parties please let us know and we will arrange transportation between Hong Kong and Shenzhen for you. Please contact Ms. Jasmine Cheung at +852 3766 0783 for enrollment.
